From the Desk of Chairman

I am pleased to share with you company's performance for the financial year ended March 31, 2021 with this Annual Report.

I hope that all of you and your loved ones are healthy and doing well even in this and I also hope most of you may be vaccinated against Covid-19 by now.

World economy is in the phase of recovery from the setback due to Covid-19 many of us have lost our loved ones in this pandemic our nation also loss many great personalities grief of which may not be expressed in words but we have to stay strong.

Coming onto Lasa, we are fully backward integrated in key molecules—from discovery research up to full-scale bulk production so that to efficiently control the supply chain.

Recently we have announced launch of 2 new block buster products with all-time strong segment one from which was also launched namely Oxycosanide.

Oxycosanide is an anthelmintic, it has got huge demand all over globe as you may know we choose products which is difficult to be manufactured and have strong entry barriers likewise this product fits in our product selection criteria and we are confident enough of grabbing significant market share.

In the month of July, 2021 heavy rains started pounding in the western indian state of Maharashtra in which Ratnagiri and Raigad, the coastal districts in the state's Konkan region were the worst hit, there were number of deaths in floods and landslides.

Due to this unfortunate natural calamity the rains led to water logging and inflow of water in our factory premises situated in Chiplun and Mahad. The Floods then led to mixture of chemicals which were basic Raw Materials and resulted into Fire in one of our Unit situated in Mahad. Due to the disruption that caused in our unit situated in Mahad we have prolonged commercialisation of Oxycosanide and Launch of another block buster product.

The operations in our all units including that situated in Mahad restored with substantial capacity with the efforts of our entire team who worked tirelessly to make it possible within few days of incident.

We continue to remain the trusted brand with high quality products, accepted by large companies across the globe. Our Company is the pioneer and amongst the leading players in the manufacturing of APIs, with a well-established brand known for its high-quality products amongst various customers.

On Financials front as well we have drastically improved as committed:

I am pleased to say, that we have delivered a decent set of numbers in FY21 led by robust consistency top line and bottom line YoY and also worked out recommendation of dividend which we aim to continue for all coming years with improved rates, this year it was just gesture considering cash flows due to recent debt repayments.

As per our commitment Revenue from operations grew at a pace of 21% YoY to reach ₹ 202.37 crore in FY21.

The growth in top-line was led by the strong traction in the company's key veterinary APIs and our key marketing efforts in this competitive market scenario.

Direct exports contribute approximately 17% to our total revenue and grew by 32% YoY to ₹ 34 crores in FY21.

EBIDTA stood at ₹ 47.28 crores with a growth of nearly 57% YoY, EBIDTA margins stood at 23.36%.

Our PAT for FY21 Stood at ₹ 22.80 Crores i.e around 11.30% which is phenomenal growth of nearly 530% if compared to same period last fiscal.

Strongest bottom line performance in FY21 was backed by our aim of (ZERO) Finance cost and yield of higher EBIDTA.

After achieving NIL Finance cost our priority continues in focusing our cash flows and more improvement in Return on Capital.

Our working capital cycle continues to improve and we consider it as best amongst our peers, which enable us to generate healthy cash flow.

In fact, during FY21, cash flow generated from operations were more than three times on YoY basis to ₹ 41 crores. We continue to be in state of evolution through a strong drive for improvement while remaining focused on quality, compliance, talent, development and effective risk management.

I place my sincere gratitude towards our Shareholders, Investors, Employees, Customers, Suppliers, Bankers, Regulators and all business associates and thank you all for having your confidence in LASA Family.

**Thank you
Sincerely
Dr. Omkar Herlekar**

➤ ECONOMIC OVERVIEW IMPACT OF COVID19:

The Indian economy was negatively impacted by an unprecedented health crisis in 2020-21 with the highly contagious corona virus (Covid-19) spreading across the country. In response to the pandemic, Government has taken several proactive preventive and mitigating measures starting with progressive tightening of international travel, issue of advisories for the members of the public, setting up quarantine facilities, contact tracing of persons infected

by the virus and various social distancing measures. Government imposed a strict 21 days nationwide lock down from March 25, 2020, under the Disaster Management Act, 2005 with subsequent extensions and relaxations, to contain the spread of Covid-19 while ramping up the health infrastructure in the country. The lock down measures, imposed to contain the spread of Covid-19 pandemic in India, ubiquitously affected employment, business, trade, manufacturing, and services activities. The real Gross Domestic Product (GDP) growth is projected to contract by 7.7 percent in 2020-21 as compared to a growth of 4.2 percent in 2019-20. GDP growth, however, is expected to rebound strongly in 2021-22 owing to the reform measures undertaken by the Government.

In keeping with our employee safety first approach, the Company quickly instituted measures to trace all employees and be assured of their well-being. Our teams reacted with

speed and efficiency, and quickly leveraged technology to shift the workforce to an entirely new possible 'work-from-home' model.

Your company strongly believe in philosophy of Human Capital is core of our success and safety of employees which is our prime responsibility along with this, we also have responsibilities towards society at large.

REPORT ON THE CSR ACTIVITIES

For the Financial Year ended on March 31, 2021

[Pursuant to Section 135 of the Companies Act, 2013 read with the Companies (Corporate Social Responsibility Policy) Rules, 2014]

1. A brief outline of the Company's CSR policy, including overview of Projects or Programs proposed to be undertaken and a reference to the web-link to the CSR policy and projects or programs.

The Company's focus areas are Education, Health and Wellness and Environmental Sustainability. In addition, for key engagements, it also partners with other entities, NGOs, Government and clients. The communities that the Company chooses are economically backward, and consist of marginalized groups (like women, children and aged) and differently abled. Your company as a responsible corporate entity framed CSR policy as stipulated by the Companies Act, 2013 to undertake all or any of the objectives contained in Schedule VII of the Companies Act, 2013. In addition to the investments in the current CSR initiatives, which are mostly in the areas of education, public health and environment which also include sustainability initiatives, the endeavor is to reduce energy and resource use.

Your company intends to actively contribute to the social and economic development of the communities in which it operates by participating actively in building a better, sustainable way of life for the weaker sections of society. The CSR Policy may be accessed on the Company's website at www.lasalabs.com.

DISCLOSURE OF PARTICULARS WITH RESPECT TO CONSERVATION OF ENERGY:

STEPS TAKEN OR IMPACT ON CONSERVATION OF ENERGY:

- Installation of Natural draft cooling towers in two units. This does not require fan which has resulted in saving of electrical energy
- PVC fills of FRP cooling towers are cleaned periodically & replaced damaged ones, as and when required to maintain the efficient working of cooling towers.
- Use of energy efficient screw compressor helped in reducing the cost of compressed air.
- Regular arresting and monitoring of steam, water, brine, fuel and compressed air leakages.
- Regular checking and maintenance of hot and cold insulation to avoid loss of heat energy.
- Use of LED lamps on reaction vessels and emergency lighting has helped in reducing the electrical load.
- Water harvesting in units has helped in water conservation.
- Installation of Turbo ventilators, wherever required helped in reducing the electrical consumption for ventilation.
- Use of APFC and parallel switching of capacitors to maintain power factor to near unity to avail maximum possible rebate in electricity bills and reduce electrical consumption.
- Regular preventive maintenance of DG sets to maintain efficient working.
- Regular cleaning of cooling tower ponds.
- Periodic cleaning of condensers, chillers, steam heating coils, by external chemicals, to maintain efficient heat transfer.
- Use of soot cleaning agent to maintain clean boiler and thermic fluid heater coils.
- Annual servicing of power transformer to maintain efficient working.
- Periodic cleaning and replacement of filters of AHUs, as and when required.
- Installation of energy efficient spin flash drier.
- Use of air curtains in GMP area to avoid loss of air conditioning.
- Recycling of Steam condensate from equipment's has helped in cutting down the loss of water and heat energy.
- Use of VFDs, wherever possible, to optimize power consumption of equipment's.
- Installation of energy efficient graphite condensers.

The company has started utilizing coal and Furnace oil as an alternate source of energy to Light Diesel oil for undercutting the cost of manufacturing.

TECHNOLOGY ABSORPTION:

EFFORTS MADE TOWARDS TECHNOLOGY ABSORPTION:

The company's philosophy right from its inception has always remained focused on in-house product development and launching the same for domestic or overseas market. The company is pioneer in most of the products being currently manufactured by it. The R&D centre of the company not only works on development of new products but is also focused on continuous up gradation of processes for improving in quality and costing. The cost reduction is brought about by improving process efficiency, use of innovative catalysts, savings in utilities and energy cost.

The company also focuses on enhancing the value addition by way of backward and forward integrations. The manufacturing facilities at all locations are designed in such a manner that there is a total fungibility for manufacturing various products as per the market requirements. This leads to a reasonably high level of capacity utilization.

ECONOMIC OVERVIEW

Overview of the Economy

The Indian economy was negatively impacted by an unprecedented health crisis in 2020-21 with the highly contagious corona virus (Covid-19) spreading across the country. In response to the pandemic, Government has taken several proactive preventive and mitigating measures starting with progressive tightening of international travel, issue of advisories for the members of the public, setting up quarantine facilities, contact tracing of persons infected by the virus and various social distancing measures. Government imposed a strict 21 days nationwide lockdown from March 25, 2020 under the Disaster Management Act, 2005 with subsequent extensions and relaxations, to contain the spread of Covid-19 while ramping up the health infrastructure in the country. The lockdown measures, imposed to contain the spread of Covid-19 pandemic in India, ubiquitously affected employment, business, trade, manufacturing, and services activities. The real Gross Domestic Product (GDP) growth is projected to contract by 7.7 percent in 2020-21 as compared to a growth of 4.2 percent in 2019-20. GDP growth, however, is expected to rebound strongly in 2021-22 owing to the reform measures undertaken by the Government.

The Government announced a special economic and comprehensive package under Atmanirbhar Bharat of ₹ 20 lakh crore - equivalent to 10 percent of India's GDP – to fight the Covid-19 pandemic in India. Several structural reforms announced as part of the package, inter alia, include deregulation of the agricultural sector, change in definition of MSMEs, new PSU policy, commercialization of coal mining, higher FDI limits in defence and space sector, development of Industrial Land/Land Bank and Industrial Information System, Production Linked Incentive Schemes, revamp of Viability Gap Funding scheme for social infrastructure, new power tariff policy and incentivizing States to undertake sector reforms. Apart from this, various steps were taken to boost consumption which, inter alia, includes cash payment in lieu of the Leave Travel Concessions (LTC) scheme,

One-time special Festival advance of ₹ 10,000 (interest-free) for central Government employees. Other steps such as Interest-free 50- year loan to states, additional capital expenditure budget for the central Government, launch of Emergency Credit Line Guarantee Scheme (ECLGS) 2.0, ₹ 1.46 lakh crore boost for manufacturing through Production-linked incentives for ten Champion Sectors, ₹ 18,000 crores additional outlay for PM Awaas Yojana (PMAY) –Urban, Equity infusion in National Investment and Infrastructure Fund (NIIF) Debt Platform, Demand booster for Residential Real Estate Income Tax relief for Developers & Home Buyers, Boost for Project Exports, Capital and Industrial Stimulus has been initiated to support economic growth.

Economic growth

As per the first Advance Estimates of annual national income released by the National Statistical Office (NSO), Real GDP is estimated to contract by 7.7 percent in 2020-21, as compared to a growth of 4.2 percent in 2019-20. This contraction in GDP growth is mainly attributed to the contraction in industry and services sector. The growth of Gross Value Added (GVA) at constant (2011-12) basic prices is estimated to contract by 7.2 percent in 2020-21, as compared to a growth of 3.9 percent achieved in 2019- 20. Positive growth in real GVA in agriculture & allied sectors at 3.4 percent in 2020- 21 against 4.0 percent in PE of 2019-20 indicates resilience of rural economic activity to the Covid-19 pandemic. From the demand side, private consumption expenditure is estimated to contract at 9.5 percent in 2020-21 as against a growth of 5.3 percent in 2019-20 and fixed investment is estimated to decline by 14.5 percent in 2020-21 as against 2.8 percent in 2019-20. Government consumption final expenditure is estimated to grow at 5.8 percent in 2020-21 as against 11.8 percent in 2019-20. Exports and imports of goods and services are estimated to contract at 8.3 percent and 20.5 percent (at constant prices) respectively in 2020-21.

Performance of the Pharmaceutical Sector

The pharmaceutical industry, along with the healthcare sector globally, has been impacted in an unseen way due to the outbreak of the COVID-19 pandemic leading to material impact around consumer requirements and preferences accompanied by macroeconomic, structural and microeconomic changes in the end-to-end value chain. In the midst of the pandemic and a changed world, the pharmaceutical industry across the world has responded with agility, from the sequencing of the novel coronavirus in January 2020 to vaccines being administered to the first recipient in the United Kingdom by December 2020, with efficacy levels over 90%, exceeding all expectations of governments and markets across the world. This innovation has been possible owing to extraordinary global efforts: collaboration as never seen before, redeployment of resources and sharing of data on a real time basis. Healthcare is likely to be on top of the strategic agenda across geographies. The pharma industry will continue to be closely monitored by governments in all countries in the times to come.

It is imperative that India reevaluates its current role within the global pharmaceutical industry, explore possibilities to consolidate and strengthen its positioning in light of geopolitical and economic shifts, and attain self-sufficiency as a globally competitive pharmaceutical industry with innovation as a guiding principle for future growth. The Indian Pharma industry has grown at a compounded growth rate of (CAGR) of ~11% in the domestic market and ~16% in exports over the last two decades. While the domestic market has grown at a similar pace to the gross domestic product (GDP), the overall growth has been driven by the industry's leadership in supplying generic formulations to markets across the globe.

The pharmaceutical industry is of economic as well as strategic significance. In order to attain self-sufficiency and be the real pharmacy of the world, a sharp focus shall be required on the next set of avenues to feed the growth engine of this industry.

Global Veterinary Healthcare

The size of the global veterinary healthcare market is expected to value USD 49.76 billion by 2026 from USD 33.96 billion in 2021, growing at a CAGR of 7.94% during the forecast period. Increased love for pets leads to an upsurge in animal ownership, raising awareness among the people about animal health drug approval requirements are the major factors driving veterinary healthcare. The growing number of foodborne diseases is also fuelling the animal healthcare market.

Veterinary medicine can be defined as the science associated with diagnosis, treating and preventing diseases in animals. The scope of veterinary medicine is broad covering various animal species both domestic and wild. The increasing importance of the production of livestock animals is generating growth in the animal healthcare market. An ever increasing population and a stable economy are expected to increase protein rich foods specially in the developing countries.

Veterinary healthcare involves providing proper treatment for the animals. There are many players associated with animal welfare to improve market shares.

In developing country like india both the government and non-government organisations are taking initiatives to improve veterinary healthcare services. For instance the Government and MSD animal Healthcare are collaborated to control foot and mouth diseases continuously monitoring the health of livestock animals.

India Animal Health Market

The India animal health market is currently witnessing strong growth. Animal health refers to the regular monitoring of the health of domesticated animals or livestock. It includes the development of veterinary drugs, pesticides, feed additives,

pharmaceuticals and biologics. Furthermore, it involves ensuring constant food supply and preventing the outbreak of various zoonotic diseases, such as feline leukemia, animal flu, Lyme disease and tick infestation, caused by viruses, bacteria and parasites. Effective practice of animal healthcare also helps in reducing the chances of inter-species infection in a veterinary or a domesticated situation. Major industries such as dairy in India are animal-dependent, owing to which the government invests significantly for improving the animal healthcare practices.

Significant growth in the veterinary pharmaceutical industry is one of the key factors driving the growth of the market in India. In line with this, the rising prevalence of zoonotic diseases is also providing a boost to the market growth. Various technological advancements, such as the integration of the Internet of Things (IoT) with animal health monitoring solutions, coupled with the increasing utilization of mobile sensors and wearables to monitor animal behavior and health, are also driving the market growth. Additionally, the widespread adoption of feed additives, which aid in enhancing the overall animal health while improving the quality of the produce, including milk, meat and eggs, is creating a positive outlook for the market. Moreover, the Government of India, along with various non-governmental organizations, are undertaking research and development (R&D) activities in the field of animal health. For instance, the Indian Federation of Animal Health Companies (INFAH), an organization formed under Section 25 of the Companies Act, works extensively to create awareness for disease control and provide effective treatments.

The Indian animal husbandry market

The Indian animal husbandry market reached a value of INR 930 Billion in 2020. Animal husbandry deals with the agricultural practice of breeding and raising livestock. Products obtained from animal husbandry include broiler meat, eggs, buffalo meat, sheep/goat meat, pig meat, wool, animal skin, etc

The per capita consumption of meat in India is fairly low compared to the developed markets suggesting that a significant share of the market still remains unpenetrated. We expect a continuous growth in disposable incomes coupled with changing food habits to increase the consumption of meat in the coming years.

- Although the share of processed meat in the entire meat industry is currently fairly small, it represents a sector that is expected to grow very fast in the coming years. As a result of increasing concerns related to the hygiene of the fresh meat available in the retail markets, consumers are expected to shift towards processed and value-added meat products such as sausages, ham, bacon, luncheon meat, kababs, meatballs, etc.
- Growth in the food services market such as restaurant and fast food joints are also creating a positive impact on the consumption of meat in the country. The share of restaurants and fast food joints serving non-vegetarian food is expected to increase in the coming years.

The leather industry in India represents a very large market and amongst the world's fastest leather markets. We expect the strong growth in the leather market to create a positive impact

on the consumption of hides and skin which are used as raw materials in the production of leather.

The woolen fabric industry in India is currently experiencing growth both in terms of domestic consumption as well as exports. We expect this to create a positive impact on the consumption of wool in the country.

IMPACT OF GLOBAL PANDEMIC & BUSINESS OUTLOOK

Impact of Covid-19 Pandemic on Operations

Entire nation is coming back to normal with a fact that we may have to continue with the covid for some long time and take all precautions to save lives from covid.

We continue to remain least affected with Covid in business front and we will continue to grow with our vision.

Business Outlook

We have already made the company free from active debts so that to achieve NIL finance cost and reduce the burden on bottom line which may yield fruits in this fiscal.

Like growth of this year we envisage strong demand in our product portfolio. Besides little more recovery from recent floods and fire nothing looks challenging for our consistent growth.

Company is in process to launch 2 block buster products which once commercialized shall add substantially to the top line of the company.

Company is targeting ahead to deliver consistent top line with atleast 20% to 25% CAGR.

RISKS AND CONCERNS

RISKS

Regulatory

The regulatory risks in the industry continue to remain the same stringent requirements and audit mechanism regulating the manufacturing, research & development, testing and safety of API products on an on-going basis. There may be changes in

the regulations regulating our existing and future products, and we shall have to comply with the changed regulations from time to time. The time frame in obtaining required clearances from regulatory authorities in India or from any other country cannot be predicted. Our veterinary API products require extensive quality control, trials, several stringent purity testing and government approvals before we can market these products, globally. All these uncertainties may affect operations of the business of our Company.

The operating results of the Company will depend upon the ability to successfully develop and license out the new products being developed through various R&D activities. We must develop, test and manufacture new products, which must meet stringent regulatory standards and receive requisite regulatory approvals. The decisions by regulatory authorities regarding whether and when to approve our API products, the speediness of regulatory authorizations, pricing approvals and product launches may be achieved and competitive developments could affect the availability or commercial potential of our products. The development and commercialization process is complex, time consuming and costly.

Research & Development

The Research & Development activities will have high risk & high return compared to manufacturing and marketing of API products. The resource requirements in the R&D activities also can be difficult to predict. However, given the right resource base and focus, the R&D activities offer strong potential. Delays in any part of the R&D activity, our inability to obtain necessary regulatory approvals for our products or failure of a product to be successful at any stage and therefore not realized could harm our operating results.

Compliance

Though we try to become fully complied however, in the country like india where there are indefinite and sometimes impractical compliances it is quite possible that there may be delay in some compliance or there shall be noncompliance due to its scope.

We understand government is working to put less compliance burden on manufacturing industries so that to achieve make in India target. Sooner or later these risks shall be mitigated to the lowest in the industry.

Insurance Risk

Under insurance, rejection of claim, delay in receipt of insurance claim or the risks of uninsured are certain risks involved with Insurance.

We have one pending claim with New India Assurance Company Ltd since 2019 which is now subjudged due to this reason we were not covered under insurance with any company during recent loss by natural calamity and till date we are uninsured though few company are in process of assessment for providing risk coverage.

Quality risk

In case of discrepancies in packaging/manufacturing, adverse events may occur due to the failure to collect, review, follow up, or report events from sources.

Environment, Health, Safety and Sustainability

Any shortcoming in compliance with our policies on maintaining environment, health, safety and sustainability standards can erode the brand image and trust.

Temporary delay

Any delay in the approval of new plants will lead to a delay in launching new products, resulting in revenue and opportunity loss

Intellectual property

We may run the risk of running into litigation if our products and processes infringe a patent held by other manufacturer.

SAFETY CHECKS FOR WORKERS

The company ensures the health and safety of employees through the below initiatives-

- Annual medical check-up of employees from certified surgeon approved by directorate of industrial safety and health
- Essential PPEs such as Safety helmet, gloves, goggles, mask etc are provided to all employees as per need of operation
- Routine training on material safety to the employees handling raw materials
- Safety training once in month for the safety awareness among employees
- Fire protection system is placed for safety of employees and plant
- Safety audit from statutory auditor once in two years

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEMS

Though it is not possible to completely eliminate various risks associated with the business of the Company, efforts are made to minimize the impact of such risks on the operations of the Company. For this, the Company has established a well-defined process of risk management which includes identification, analysis and assessment of various risks, measurement of probable impact of such risks, formulation of the risk mitigation strategies and implementation of the same so as to minimize the impact of such risks on the operations of the Company. An enterprise wide risk evaluation and validation process is carried out regularly and the review of the risk management policy is also carried out at regular intervals by the Board of Directors so as to ensure that the new risks which might have arisen or the impact of the existing risks which might have increased are identified and a proper strategy is put in place for mitigating such risks. The Company has put in place various internal controls for different activities so as to minimize the impact of various risks. Also, as mandated by the Companies Act, 2013 the Company has implemented the Internal Financial Control (IFC) framework to ensure proper internal controls over financial reporting. Apart from this, a well-defined system of internal audit is in place so as to independently review and strengthen these internal controls. The Audit Committee of the Company regularly reviews the reports of the internal auditors and recommends actions for further improvement of the internal controls.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

In view of the amendments in the Companies Act, the Company has taken additional measures to strengthen its internal control systems. Additional measures in this regard are fraud risk assessment, mandatory leave for employees, strengthening background verification process of new joiners, whistle blower policy and strengthening the process of risk management. The Company maintains a system of internal controls designed to

provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, the reliability of financial controls, and compliance with applicable laws and regulations.

The organization is well structured and the policy guidelines are well documented with pre-defined authority. The Company has also implemented suitable controls to ensure that all resources are utilized optimally, financial transactions are reported with accuracy and there is strict adherence to applicable laws and regulations.

The Company has put in place adequate systems to ensure that assets are safeguarded against loss from unauthorized use or disposition and that transactions are authorized, recorded and reported.

The Company also has an exhaustive budgetary control system to monitor all expenditures against approved budgets on an ongoing basis.

Recognizing the important role of internal scrutiny, the Company has an internal audit function which is empowered to examine the adequacy of, and compliance with, policies, plans and statutory requirements. It is also responsible for assessing and improving the effectiveness of risk management, control and governance process.

Periodical unit audit and verification of the systems enables the various business groups to plug any shortcomings in time. As stated earlier the Company has improved effectiveness of the risk management process wherein it evaluates the Company's risk management system and suggests improvement in strengthening risk mitigation measures for all key operations, controls and governance process. In addition, the top management and the Audit committee of the Board periodically review the findings and ensure corrective measures are taken.

HUMAN RESOURCES

The Company has Human Relations and Industrial Relations policies in force. These are reviewed and updated regularly in line with the Company's strategic plans. The Human Relations team continually conducts training programs for the development of employees.

The Company aims to develop the potential of every individual associated with the Company as a part of its business goal. Respecting the experienced and mentoring the young talent has been the bedrock for the Company's successful growth. The Company's employees' age bracket represents a healthy mix of experienced and willing-to-experience employees.

Human resources are the principal drivers of change. They push the levers that take futuristic businesses to the next level of excellence and achievement. The Company focuses on providing individual development and growth in a work culture that enables cross-pollination of ideas, ensures high performance and remains empowering. On the Industrial Relations front, a cordial relationship has been maintained with the workmen in the manufacturing units.

As of March 31, 2021 the Company has 194 numbers of employees on its payroll.

C. Detailed reason for the resignation of an Independent Director

No Independent Director resigns before the expiry of his tenure during the financial year 2020-21.

➤ Performance Evaluation of the Board, its Committees and Individual Directors:

Pursuant to the provisions of the Act and the SEBI Listing Regulations, 2015 (as may be applicable), the Nomination and Remuneration committee and the Board of Directors (Board) had carried out an annual evaluation of its own performance and that of its committees and individual Directors.

The performance evaluation criteria were determined by the Nomination and Remuneration Committee. A structured questionnaire was prepared by Nomination and Remuneration committee after taking into consideration the various aspects such as participation at Board/ Committee Meetings, Board functioning, knowledge and skill, personal attributes, Board composition and quality, Board Meetings and procedures, Board strategy and risk management, Board and Management Relations etc. The nomination and Remuneration committee reviewed the performance of the Board, its committees and of the Directors. The

performance of the Board and individual Directors was evaluated by the Board seeking inputs from all the Directors. The performance evaluation of the independent Directors was carried out by the entire Board, excluding the Director being evaluated. The performances of the committees were evaluated by the Board seeking inputs from the committee members.

Further, the independent Directors had their separate meeting without the attendance of non-independent directors and members of management wherein they reviewed the performance of the Board as whole, its chairman and non-executive Directors and other items as stipulated under the Act. Recommendations and suggested areas of improvement for the Board, its various committees were considered by the Board.

REMUNERATION OF DIRECTORS:

Nomination and Remuneration Policy:

Remuneration policy of the Company is designed to create a high-performance culture. It enables the Company to attract, retain and motivate employees to achieve results. Our business model promotes customer centricity and requires employee mobility to address project needs. The Company pays remuneration by way of salary, benefits, perquisites and allowances (fixed component) and commission (variable component) to its Managing Director and the Executive Directors. Annual increments are recommended by the Nomination and Remuneration Committee within the salary scale approved by the Board and Members and are effective April 1, each year

(I) Independent Directors

- a) Independent Directors ('ID') are paid sitting fees for attending the Meetings of the Board and of Committees of which they are Members, and Commission within regulatory limits, as recommended by the NRC and approved by the Board.
- b) Overall remuneration should be reasonable and sufficient to attract, retain and motivate Directors aligned to the requirements of the Company taking into consideration the challenges faced by the Company and its future growth. Remuneration paid should be reflective of the size of the Company, complexity of the Sector / Industry / Company's Operations and the Company's capacity to pay the remuneration and be consistent with recognized best practices.
- c) The remuneration payable to Directors shall be inclusive of any remuneration payable for services rendered in any other capacity, unless the services rendered are of a professional nature and the NRC is of the opinion that the Director possesses requisite qualification for the practice of the profession.

The Company paid sitting fees of RS. 20,000/- per meeting to its Non-Executive Directors for attending meetings of the Board and meetings of committees of the Board till March 31, 2021.

The non-executive directors are also entitled to reimbursement of expenses for participation in the Board and other meetings in terms of the Companies Act, 2013.

II) Managing Director ('MD') / Executive Director ('ED') / Key Managerial Personnel ('KMP') / rest of the employees

The extent of overall remuneration should be to attract and retain talented and qualified individuals suitable for every role. Hence, remuneration should be market competitive, driven by the role played by the individual, reflective of the size of the Company, complexity of the Sector/ Industry / Company's Operations and the Company's capacity to pay, consistent with recognized best practices and aligned to regulatory requirements. Basic / Fixed Salary is provided to all employees to ensure that there is a steady income in line with their skills and experience. In addition, the Company provides employees with certain perquisites, allowances and benefits in accordance with the terms of employment / contract.

The Board of Directors, on the recommendation of the Nomination and Remuneration Committee, decides the commission payable to the Managing Director and the Executive Directors out of the profits for the financial year and within the ceilings prescribed under the Act, based on the Board evaluation process considering the criteria such as the performance of the Company as well as that of the Managing Director and each Executive Director.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED ON March 31, 2021

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
Lasa Supergenerics Limited
C-105, MIDC Mahad, Mahad
Raigad, MH – 402301.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Lasa Supergenerics Limited**

(CIN: L24233MH2016PLC274202) (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit. I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on March 31, 2021 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2021 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made thereunder;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992/The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; (Not Applicable to the Company during the Audit Period)
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014; (Not Applicable to the Company during the Audit Period)
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008; (Not Applicable to the Company during the Audit Period)
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not Applicable to the Company during the Audit Period) and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998; (Not Applicable to the Company during the Audit Period)

I have relied on the representation made by the Company, its Officers and on the reports given by designated professionals for systems and processes formed by the Company to monitor and ensure compliances under other applicable Acts, Laws and Regulations to the Company.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with Stock Exchanges read with Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act. The appointment / cessation of key managerial persons were in compliance with the provisions of the Act.

Adequate notice is given to all the Directors to schedule the Board Meetings. Agenda and detailed notes on agenda were sent at least seven days in advance except in few cases and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that the compliance by the Company for the applicable Financial Laws like Direct Taxes, Indirect Taxes and the compliance of the Accounting Standards, quarterly financial results under Regulation 33 of SEBI (LODR) Regulations, 2015 and the annual financial statements, Cost Records has not been reviewed in this audit report, since the same have been subject to the statutory financial audit/ cost audit by other designated professionals.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Lasa Supergenerics Limited Report on the Audit of Financial Results

Opinion

We have audited the annual financial results of Lasa Supergenerics Limited (hereinafter referred to as the 'Company') for the year ended March 31, 2021 and the Balance Sheet and the Statement of Cash Flows as at and for the year ended on that date, attached herewith, being submitted by the Company pursuant to the requirement of Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the 'Listing Regulations').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial results:

- i. are presented in accordance with the requirements of Regulation 33 and Regulation 52 of the Listing Regulations in this regard; and
- ii. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards prescribed under Section 133 of the Companies Act, 2013 (the "Act") and other accounting principles generally accepted in India, of net profit and other comprehensive income and other financial information of the Company for the year ended March 31, 2021 and the balance sheet and the statement of cash flows as at and for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India.' Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Results' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in our Audit
<p>Revenue Recognition</p> <p>Revenue is recognised when the control of the product being sold has transferred to the customer. Therefore, there is a risk of revenue being overstated on account of variation in the timing of transfer of control due to the pressure management may feel to achieve performance targets at the reporting period end.</p>	<p>In view of the importance of the matter we applied the following audit procedures in this area, among others to obtain sufficient audit evidence:</p> <ul style="list-style-type: none"> • Evaluating the process followed by the company for revenue recognition including understanding and testing of key controls relating to recognition of revenue in correct period. • Inspecting documentation/records for sales transactions recorded both side of year-end to determine if revenue has been recognised in the correct period and • Critically assessing manual journals posted to revenue to identify unusual or irregular items.
<p>Inventories</p> <p>Inventories held by company comprising Work in progress or Raw Material may be held for long periods of time before sale making it vulnerable to reduction in net realizable value (NRV). This could result in an overstatement of the value of inventory when the carrying value is higher than the NRV.</p> <p>For NRV assessment, the estimated selling price is determined for a phase, sometimes comprising multiple units. The assessment and application of write-down of inventory to NRV are subject to significant judgements. As such inappropriate assumptions in these judgements can impact the assessment of the carrying value of inventories. Considering the management's judgement associated with long dated estimation of future market and economic conditions, we have considered assessment of net realizable value of inventory as a key audit matter.</p>	<p>Our audit procedures to assess the net realizable value (NRV) of inventories included the following:</p> <ul style="list-style-type: none"> • Understanding the basis of estimated selling price for the unsold units and work in progress. • Evaluating the design and testing operating effectiveness of controls over preparation and update of NRV workings by designated personnel. Testing controls related to review of key estimates, including estimated future selling prices and costs of completion for property development projects. • Evaluating the management's judgement with regards to application of write-down of inventory units by auditing the key estimates, data inputs and assumptions adopted in the valuations. Comparing expected future average selling prices with available market conditions such as price range available under industry reports published by reputed consultants.

Other Matters

The continuous spreading of COVID-19 across India has resulted in restriction on physical visit to the client locations and the need for carrying out alternative audit procedures as per the Standards on Auditing prescribed by the Institute of Chartered Accountants of India (ICAI). As a result of the above, the entire audit was carried out based on remote access of the data as provided by the management of the Company. This has been carried out based on the advisory on "Specific Considerations while conducting Distance Audit/ Remote Audit/ Online Audit under current Covid-19 situation" issued by the Auditing and Assurance Standards Board of ICAI. We have been represented by the management of the Company that the data provided for our audit purposes is correct, complete, reliable and are directly generated by the accounting system of the Company without any further manual modifications.

We bring to the attention of the users that the audit of the financial statements has been performed in the aforesaid conditions.

Our audit opinion is not modified in respect of the above.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Financial Results

These financial results have been prepared on the basis of the annual financial statements. The Company's Board of Directors are responsible for the preparation and presentation of these financial results that give a true and fair view of the net profit and other comprehensive income and other financial information of the Company and the balance sheet and the statement of cash flows in accordance with the recognition and measurement principles laid down in the Indian Accounting Standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 and Regulation 52 of the Listing Regulations. The Board of Directors of the Company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial

controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the financial results by the Directors of the Company, as aforesaid.

In preparing the financial results, the Board of Directors of the Company are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Company are responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Financial Results

Our objectives are to obtain reasonable assurance about whether the financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- iv. Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's

report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- v. Evaluate the overall presentation, structure and content of the financial results including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

1. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the statement of change in equity and the Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid financial statements comply with Ind AS specified under Section 133 of the Act.

- e) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure 2" to this report.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has no pending litigations on its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company
2. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act.

In our opinion and to the best of our information and according to the explanation given to us, the remuneration paid/ provided by the company to its directors during the year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any directors is not in excess of the limit laid down U/s 197 of the IT Act. The Ministry of Corporate Affairs has not prescribed other details U/s 197 (16) which requires to be commented by us.

ANNEXURE A TO AUDITOR'S REPORT

The annexure referred to in independent auditor's report to the members of the Company on the financial statements for the year ended March 31, 2021.

We report that:

1. a. The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- b. As explained to us, the Company has a program for physical verification of fixed assets at periodic intervals. In our opinion, the period of verification is reasonable having regard to the size of the Company and the nature of its assets. The discrepancies reported on such verification were not material and have been properly dealt with in the books of account.
- c. Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, the title deeds of immovable properties are held in the name of the company subject to the assets which were transferred to the company as per NCLT order in terms of demerger, but the title of the same are still under process to be changed from individual units to the company.
2. The management has conducted physical verification of inventory at reasonable intervals during the year ended and no material discrepancies were noticed on such physical verification.
3. In our opinion the Company has not granted any loans to person covered in the register maintained under section 189 of the Companies Act, 2013.
4. In our opinion and according to the information and explanations given to us, the company has neither given any loan nor made any investment during the year, therefore provisions of section 185 and 186 of the Act regarding thereto are not applicable.
5. The Company has not accepted deposits during the year and does not have any unclaimed deposits as at March 31, 2021 and therefore, the provisions of the Clause 3 (v) of the Order are not applicable to the Company.
6. To the best of our knowledge and explanation given to us, the provisions of maintenance of cost records under sub section (1) of Section 148 of the Act are not applicable to Company for the financial year 2020-21. Accordingly, Clause (vi) of Order is not applicable.
7. a. Undisputed statutory dues including provident fund, employees' state insurance, income-tax, Goods and Service Tax, Custom Duty and other material statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 10(f) of the Independent Auditors' Report of even date to the members Lasa Supergenerics Limited on the financial statements for the year ended March 31, 2021.

Report on the internal financial controls under clause(i) of sub-section 3 of section 143 of the Act

We have audited the internal financial controls over financial reporting Lasa Supergenerics Limited ('the Company') as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's responsibility for internal financial controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
2. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company.
3. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENT AS ON MARCH 31, 2021

1. Corporate Information

Lasa Supergenerics Limited (the Company) is a company registered under Companies Act, 2013 and incorporated on March 11, 2016. The Company is primarily engaged in the business of manufacturing API bulk drugs products. The company's shares got listed on National Stock Exchange & Bombay Stock Exchange as on September 21, 2017 and has a registered office located at Plot No. C-105, Mahad Industrial Area, Mahad, Dist. Raigad, Maharashtra-402309

2A. Basis of preparation

The Statement of Assets and Liabilities of the Company as at March 31, 2021 and the Statement of Profit and Loss, the Statement of Cash flows and the Statement of Changes in Equity for the year ended March 31, 2021 has been prepared under Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015. The financial Statement as at and for the year March 31, 2021 along with financial statement as at and for the year ended March 31, 2020

Accounting Estimates

The preparation of the financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognized in the period in which they are determined.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2B. Significant accounting policies

I. Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset/ liability is treated as current when it is:

- a) Expected to be realized/ settled or intended to be sold or consumed in normal operating cycle

- b) Held primarily for the purpose of trading
- c) Expected to be realized/ settled within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets/ liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

II. Fair value measurement

The Company's accounting policies and disclosures require the measurement of fair values for, both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

III. Property, Plant and Equipment

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other nonrefundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Expenses directly attributable to new manufacturing facility during its construction period are capitalized if the recognition criteria are met. Expenditure related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant heads of property, plant, and equipment if their recognition criteria are met.

Capital work in progress and Capital advances:

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Depreciation/ Amortization:

- a) Depreciation on tangible assets is provided on straight line basis considering the useful lives prescribed in Schedule II to the Act on a pro-rata basis.
- b) Leasehold improvements are amortized based on primary lease period or their useful lives prescribed under Schedule-II, whichever is lower.
- c) The asset's useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period.
- d) An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.
- e) The residual values, useful lives, and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Derecognition:

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the Derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

IV. Intangible assets

Measurement at recognition:

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets arising on acquisition of business are measured at fair value as at date of acquisition. Internally generated intangibles including research cost are not capitalized and the related expenditure is recognized in the Statement of Profit and Loss in the period in which the expenditure is incurred. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment loss, if any. Assets acquired but not ready for use are classified under Capital work-in-progress or intangible assets under development.

Amortization:

Intangible Assets with finite lives are amortized on a Straight-Line basis over the estimated useful economic life. The amortization expense on intangible assets with finite lives is recognized in the Statement of Profit and Loss.

Intangible assets with indefinite useful lives, are not amortized, but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis. The impairment loss on intangible assets with indefinite life is recognized in the Statement of Profit & Loss.

Impairment:

An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit (CGU) exceeds its recoverable amount. The recoverable amount of an asset is the greater of its fair value less cost to sell and value in use. To calculate value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market rates and the risk specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the CGU to which the asset belongs. Fair value less cost to sell is the best estimate of the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

Impairment losses, if any, are recognized in the Statement of Profit and Loss and included in

depreciation and amortization expense. Impairment losses, on assets other than goodwill are reversed in the Statement of Profit and Loss only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognized.

V. Inventories

Raw materials, work-in-progress, finished goods, packing materials, stores, spares, components, consumables, and stock-in-trade are carried at the lower of cost and net realizable value. However, some materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis. Net realizable value is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessary to make the sale.

In determining the cost of raw materials, packing materials, stock-in-trade, stores, spares, components, and consumables, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated based on normal capacity of production facilities.

VI. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts.

Financial instruments also covers contracts to buy or sell a non-financial item that can be settled net in cash or another financial instrument, or by exchanging financial instruments, as if the contracts were financial instruments, with the exception of contracts that were entered into and continue to be held for the purpose of the receipt or delivery of a non-financial item in accordance with the entity's expected purchase, sale or usage requirements.

Derivatives are currently recognized at fair value on the date on which the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period.

a) Financial Assets

Classification

The Company classifies its financial assets in the following measurement categories:

- Where assets are measured at fair value, gains and losses are either recognized entirely in the Statement of Profit and Loss (i.e. fair value through profit or loss), or recognized in Other Comprehensive Income (i.e. fair value through other comprehensive income).
- A financial asset that meets the following two conditions is measured at amortized cost (net of any write down for impairment) unless the asset is designated at fair value through profit or loss under the fair value option.

Business model test: The objective of the Company's business model is to hold the financial asset to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realize its fair value changes).

Cash flow characteristics test: The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Initial recognition and measurement

At initial recognition, the Company measures a financial asset at fair value plus, in the case of a financial asset not recorded at fair value through the Statement of Profit and Loss, transaction costs that are attributable to the acquisition of the financial asset.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or –
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Company has transferred its rights to receive cash flows from an asset or has entered a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind-AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, deposits, and bank balance.
- Trade receivables - The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. Trade receivables are tested for impairment on a specific basis after considering the sanctioned credit limits, security like letters of credit, security deposit collected etc. and expectations about future cash flows.

b) Financial Liabilities

Classification

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered and the definitions of a financial liability and an equity instrument.

The Company classifies all financial liabilities as subsequently measured at amortized cost, except for financial liabilities at fair value through the Statement of Profit and Loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are recognized when the Company becomes a party to the contractual

provisions of the instrument. Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost. Amortized cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind-AS 109 and the amount recognized less cumulative amortization.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign

currency risks and interest rate risks, respectively. Such derivative financial instruments are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of item being hedged, and the type of hedge relationship designated.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

VII. Provision and Contingent liabilities

Provisions

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value (except where time value of money is material) and are determined based on the best estimate required to settle the obligation at the reporting date when discounting is used, the increase in provision due to passage of time is recognized as finance cost. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets, and commitments are reviewed at each balance sheet date.

VIII. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

IX. Revenue:

Sale of goods:

Revenue from sale of goods is recognized on transfer of control of promised goods to a customer at an

amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

Interest Income:

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR), which is the rate that discounts the estimated future cash payments or receipts through the expected life of the financial instruments or a shorter period, where appropriate, to the net carrying amount of the financial assets. Interest income is included in other income in the Statement of Profit and Loss.

X. Foreign Currency

Transaction and Balances:

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction. Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognized as income and expenses in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of transactions. Non-monetary items that are measured at fair value in a foreign currency shall be translated using the exchange rates at the date when the fair value was measured. Exchange differences are generally recognized in the Statement of Profit and Loss.

XI. Employee Benefits

Short Term Benefits:

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this

amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Other long-term employee benefit obligations:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements because of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

Post-Employment Obligations:

a) Gratuity

The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

b) Defined Benefit contribution plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due.

c) Bonus Plan

The Company recognizes a liability and an expense for bonuses. The Company recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

XII. Taxes

Current income tax

Current tax is the amount of tax payable (recoverable) in respect of the taxable profit / (tax loss) for the year determined in accordance with the provisions of the Income-Tax Act, 1961. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets (including MAT credit) are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognized only to the extent that it is probable that the temporary

differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets (including MAT credit available) is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognized outside profit or loss is recognized outside the statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

GST paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the amount of GST (Goods and Service Tax) paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included the net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current assets or liabilities in the balance sheet.

XIII. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset until such time that the asset are substantially ready for their intended use. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

XIV. Earnings per share

Basic and diluted earnings per Equity Share are computed in accordance with Indian Accounting Standard 33 'Earnings per Share', notified accounting standard by the Companies (Indian Accounting Standards) Rules of 2015 (as amended). Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources

Note 30 : Financial instruments

- 1) The fair value of the financial assets are included at amounts at which the instruments could be exchanged in a current transaction between willing parties other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

- (a) Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments
- (b) Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for the expected losses of these receivables.

Measurement of Fair Values:

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of loans taken from banks and other parties, and preference shares is estimated by discounting cash flows using rates currently available for debt/instruments with similar terms, credit risks and remaining maturities. Management regularly assesses a range of reasonably possible alternatives for those significant observable inputs and determines their impact on the total fair value

The fair values of loans given to employees and other parties, and security deposit given is estimated by discounting cash flows using rates currently available for instruments with similar terms, credit risks and remaining maturities. Management regularly assesses a range of reasonably possible alternatives for those significant observable inputs and determines their impact on the total fair value

Financial Instruments measured at fair value

Type	Valuation Technique
Loans & Security Deposits given	Discounted Cash Flows :The valuation model considers the present value of expected receipt / payment discounted using appropriate discounting rates

Note 31 : Employee Benefit

The Company has a defined benefit gratuity plan. Every employee who has completed five years or more of service gets a gratuity on retirement / resignation or retirement under VRS at 15 days salary (last drawn salary) for each completed year of service. The scheme is funded with an insurance company in the form of a qualifying insurance policy.

The service cost and the net interest cost would be charged to the Profit & Loss account. Actuarial gains and losses arise due to difference in the actual experience and the assumed parameters and also due to changes in the assumptions used for valuation. The Company recognises these remeasurements in the Other Comprehensive Income (OCI).

The Company has a defined benefit obligation for Leave encashment which is partly funded. Generally the leave encashment is paid to employees in case of resignation, retirement under VRS or retirement except in some case the same is paid annually.

The principal assumptions used in determining gratuity benefit obligations for the Company's plans are shown below

Particulars	GRATUITY		LEAVE ENCASHMENT

* As per actuary certificate

Basis of Valuation (Assumptions)

Discount Rate:

As per para 83 of Ind AS 19, the rate used to discount other long term employee benefit obligation (both funded and unfunded) shall be determined by reference to market yield at the Balance Date on high quality corporate bonds. In countries where there is no deep market in such bonds the market yields (at the Balance Sheet Date) on government bonds shall be used. The currency and term of the corporate bond or government bond shall be consistent with currency and estimated term of the post employment benefit obligation.

Salary Growth Rate:

This is Management's estimate of the increases in the salaries of the employees over the long term. Estimated future salary increases should take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

Rate of Return on Plan Assets :

This assumption is required only in case of funded plans. Interest income on plan assets is calculated using the rate used to discount the defined benefit obligation

The following tables summarise the funded status and amounts recognised in the balance sheet for gratuity & leave encashment benefits.

Note 33 : Financial Risk Management and Policies

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the managing board. The details of different types of risk and management policy to address these risks are listed below:

(a) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs

(a)(i) Market Risk - Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The company's exposure to the risk of changes in market interest rates primarily to the Company's borrowings, both short term and long term obligations with floating interest rates. The company is also exposed to interest rate risk on its financial assets that include fixed deposits (which are part of cash and cash equivalents) since all these are generally for short durations, there is no significant interest rate risks pertaining to these deposits

Exposure to interest rate risk

(₹ in lakhs)

Particulars	As at March 31, 2021	As at March 31, 2020
Fixed-rate instruments		
Financial Liabilities- Borrowings	-	1,370.17
Total	-	1,370.17

Sensitivity analysis to interest rate risk

The company doesn't account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(a)(ii) Market Risk - Price Risk

The Company has no surplus for investm*ent in debt mutual funds, deposits etc. The Company does make deposit with the banks to provide security against gurantee issued by bank to companys trade payables. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

(a)(iii) Market Risk - Currency Risk

The fluctuation in foreign currency exchange rates may have a potential impact on the statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. The company is exposed to currency risk on account of its trade payables in foreign currency. The functional currency of the company is Indian Rupees. The Company follows a natural hedge driven currency risk mitigation policy to the extent possible

Exposure to Currency risk

The summary quantitative data about the Company's exposure to currency risk are reported to management of the company are as follows:

(Foreign Currency in lakhs)

Particulars	Foreign Currency	As at	As at
		March 31, 2021	March 31, 2020

EURO			-	-
Total	10.04	(10.04)	10.30	(10.30)

(b) Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. The carrying amount of Financial Assets represents the maximum credit exposure

Trade Receivables

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, industry information, business intelligence and in some cases bank references.

Trade Receivables of the Company are typically unsecured, except to the extent of the security deposits received from the customers or financial guarantees provided by the market organizers in the business. Credit Risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The Company has no concentration of Credit Risk as the customer base is geographically distributed in India.

Expected credit loss for trade receivable:

The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables. On account of adoption of Ind AS 109, the Company uses lifetime Expected Credit Loss (ECL) model for assessing the impairment loss. For this purpose, the Company uses a provision matrix to compute the expected credit loss amount for trade receivables. Loss rates are based on actual credit loss experience and past trends. The provision matrix takes into account external and internal credit risk factors and historical experience / current facts available in relation to defaults and delays in collection thereof

The movement of the expected loss provision (allowance for bad and doubtful loans and receivables etc.) made by the company are as under:

(₹ in Lakhs)

Particulars	As at March 31, 2021	As at March 31, 2020
Opening balance of expected loss provision	1.66	1.80
Add : Provisions made (net)	21.43	(0.14)
Less : Utilisation for impariment / de-recognition	-	-
Closing balance	23.09	1.66

Other Financial Assets

The company maintains its Cash and Cash equivalents and Bank deposits with banks having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

Expected credit loss on financial assets other than trade receivable:

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties from whom these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on such financial assets. Break up of financial assets other than trade receivables have been disclosed on balance sheet

The Company's maximum exposure to credit risk as at March 31, 2021, 2020, 2019 and April 1, 2018 is the carrying value of each class of financial assets.

(c) Liquidity Risk

Liquidity Risk is the risk that the Company will face in meeting its obligation associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach in managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Any short term surplus cash generated, over and above the amount required for working capital and other operational requirements is retained as Cash and Cash Equivalents (to the extent required).

Exposure to Liquidity Risk

The following table shows the maturity analysis of the Company's Financial Liabilities based on contractually agreed undiscounted cash flows along with its carrying value as at the Balance Sheet Date
